Rockwell, see his a/c and that left 412 unpaid for. I threw out the 12 of course and Mr. S. Rice paid me .61 for the 400 as he had the benefit of the plants—though I preferred that it should be considered Ras Rice's debt. Ernest came to see Patty and brought me some sugar cane. John came back. I sent him to Bellevue to get sled fixed and get meal. Miss R. sewed. 2° below 0 when I went upstairs.
- 3 Moderating—6° above when I came down. Miss R. sewed. John hauled some wood. It snowed part of the day. Ernest and Homer Grant came in a sleigh. Down to 0 at bedtime.

Charlie and Tom and Jim Loudon helped. Charlie said he would call his work  $\frac{1}{2}$  day. After dinner Mr. Rice ran the lines and measured the ground Charlie grubbed for tobacco—he made it out 3 acres 34 poles. I agreed to take the ground from him and allow him \$12.00 an acre for clearing it which Mr. Rice said would come to 38.55. Mr. Scott Rice put on pasture this evening 4 cows, two of them with making calves. Got postal from Patty and 2 letters for her. - 14 Went to old Mrs. Foster's hoping to see Julia, but did n't—spent most of the day there. Mr. Green worked and Charlie helped him. Louis fixed crib and hauled rails and posts. Mr. M. told me tonight that so far they had hauled 31 loads of corn in all this week.
- 15 Mr. Green and Charlie worked at the fence. Louis fixed the ground at the side of the big crib—hauled rails and after dinner went to Bellevue for the wagon bed. Dr. Grant came for a little while. Sally sick last night, or rather early this morning—better now. Advanced money to Jim Loudon and let him have Billy to go after a saw for Mr. M. Got French invitation from buddy. Sent a letter to Mr. Foster to buy me some lumber. Still like spring.
- 16 Another warm day but hazy and looked rather like rain. Miss Lou and Ernest came down and took dinner with us.
- 17 Warm and rained a little and misty most of the day. Mr. Green came about noon and began on the fence again. Louis hauled some posts and shelled corn and took it to mill. Mr. Green and Charlie set posts & hewed. Charlie began rather late. Mr. Kelly worked for me to-day—before noon he got out poles in the thicket I had cut off; after he cut tops in the grove and helped John load. I went to Mrs. Rice's this morning. While there a young man, Mr. Grigsby, paid me \$2.50 for pasture he owed me. It is so warm I thought my sausage meat might spoil and sold off most of it yesterday and to-day.
- 20 Went to Bellevue early—took letter to Mrs. Minor. Mr. Green & Charlie worked at the fence. Louis did not work. John hauled posts; after dinner he took the wagon up to Mr. Walton's to get the young sow I bought of George. I went too and she was brought home. Mr. Kelly worked in the locust grove. Jim L. came for me to measure his ricks of stove wood—6 ½ ricks. Heavy fog and mist this morning; cleared off and turned lovely afterwards. Sally got letter from cousin Belle with 5.00 for Christmas gift.

- 21 Five years ago to-day my dear papa died. Lord love his soul. Patty came home this evening for the holidays. Louis was poorly and did n't work. I went to Louisa's and afterwards picked over apples—got a load ready for Julia—took it down when I went for Pat. Louis helped with the apples. John Foley hauled new rails to the fence row and afterwards took me to the river. Pat brought me a letter from John. Warm as spring still—I never saw such winter moonlight nights as we have had lately. The moon rises like a globe of fire as it does in the summer and looks warm. Mr. Green worked on the fence, Charlie helped. Mr. Sherman and another man came down and put in the cisterns that I got of Mr. House. Mr. Kelly cut tree tops & poles. Patty brought me a crayon picture of her mother that she drew from a photograph. He has been sick so much that he has only worked 56 ½ days in all that brings his wages to 24.73 and he has drawn 15.34 which leaves me now owing him 9.39. Jim Loudon got 1 ½ bushels of the potatoes in kitchen cellar that were due Mr. Murdock and that he told me to let Jim have. Charlie worked part of the day at the fence below the clover field—began about 8 and as it rained they quit about ½ past 3. Mr. Kelly helped and part of the time he examined the meat and resalted part of it. Jim L. worked a little. He got dinner here and helped John Foley haul a load of clover hay to the stable. - 26 Rained hard during the night and a little this morning and during the day and was misty and cloudy & warm. July had a little lamb, a Christmas gift. Ernest came down after dinner. He and Patty went to Bellevue and brought a letter to me from BBG and one for Sally from Cousin Rebecca. Charlie Rockwell came up and we had a settlement—the first since last Christmas. All the work he has done to date came to 43.11. I gave Charlie his note for \$30. see May 2, to pay for the ground he cleared, see July 10<sup>th</sup>. Not charging any interest, he called the clearing money \$38. The balance due him I paid with 8. due me for his pasture of calf and only charged him with .75 pasture see a/c book. My account against him came to 19.39 which deducted from 43.11 left me owing him 23.72. I paid him .70 and he would n't take the 2 on a/c of little things I had let him have without charge, so I now owe him \$23. The boys did n't get much done. John Foley hauled the sleepers out of the old kitchen I am making a stable for Mr. M. Louis took the boards out and they pulled the chimney down.
