- 3 My young Kelly cow, Jane, had a white heifer calf, her second calf, according to what Mrs. K said. Mr. Green came back and he and Charlie worked at the fence towards Mr. Rice's after dinner and at this end before. John and Louis hauled new rails off the hills before dinner and posts and old rails after. I went up to see the rails and to see Mr. Hunt's clearing. After dinner went to Mr. Moreland's to look at Mr. Sullivan's calves. Maggie S. came to see about working for me. I got letter from Sally Pollock and BBG and circular from bank. It was cold this a.m., 20° above 0—turned warmer, at freezing at $\frac{1}{2}$ past 8 p.m.
- 4 Quite a heavy snow this morning, several inches deep. 2° below freezing at 6 a.m. Snowed sometime during the day. Louis fixed the sheep pen under the big barn and drove the sheep up. We had the cattle put up in the lot for the first time this winter. John Foley cleaned out the stable, attended to the young cow with the calf, hauled the long trough to the sheep pen &c. I went up to Mrs. Sullivan's and engaged to take her 2 calves at 18.00 and to take Maggie to work. Mr. Green & Charlie worked facing posts. Ernest came down and Pat went to Bellevue with him. 20° above 0 at 9 p.m.

Went to Mr. Corbin's to settle my bill and I gave Mr. Corbin an order on Mr. Seth C. Foster for \$103. Ernest took Patty to Bellevue to go on the boat with Mr. Corbin to Cinti. I sent by her a letter to Julia asking her to get a silk dress for Patty and get the money out of mine, Mr. Foster has. Dumont came after Aunt Eliza and she went to Rising Sun. Maggy Sullivan came to work for me.
- 7 8° below 0 at $\frac{1}{2}$ past 6 a.m. Coldest night of the year so far. Did n't get much done. Louis and John went to Bellevue and got a load of Mr. Clore's coal, gross 3360 lbs—wagon 950 lbs = 2410 lbs. They hauled a little wood after dinner. Mr. Murdock gave a dance. Sally rather poorly.
- 8 Moderating, 3° below 0 at 7 a.m. Went up to 28 or 29 above 0 during the day. Bright and pretty. Louis and John hauled some stove wood—had the cattle for the first time turned on

stalk field. Hilda went to Bellevue and brought mail. I got picture of Sally and a letter from Nat'l Met. Bk. Washington with draft for 8.00. Jim L. got a bushel of potatoes, the last of those Mr. Murdock said he was to have.

Got letter from Patty, and from Bk. of Washington with draft for \$39. and from Farmer's & Mech's Bk. Georgetown for \$28. Louis and John hauled rock from the chimney of the old tenant house to the fence row on the new road.
- 11 Went to Rising Sun—got the 3 drafts cashed, \$75. and took it. Roads very bad. Louis took the wagon and helped Mr. Hunt haul his wood till dinner. John Foley cut tops and got ready kitchen wood. Louis did the same after dinner I believe.
- 12 Was getting ready to go away when Dumont came after corn for Uncle Jilson. Before I could start, R.E. came and stayed to dinner. After he left Hilda and I went to Bellevue. I made a little call to see Kate Corbin—stopped at Louisa's afterwards to see Mrs. Fanny Grant. Got letter from Julia with mem. of the money she spent getting Patty's things, silk dress &c. Louis only worked ½ day hauling wood, then Charlie had the wagon to haul some wood. John cut some wood I believe.
- 13 Sunday. Rained all day. Sally had toothache all day nearly. Dr. Grant came for a little while. Sent Clara to Mr. Rice's by Mr. Kelly and John—but his 'animal' was gone home.
- 14 Mr. Green came and he and Charlie worked facing posts. Louis was away. John Foley took meat out of salt, fed, &c and hauled a few posts out. Another little lamb came. Had the big sow put up in the pen. Poor Sally had toothache, was nearly distracted with it.
- 15 Raw and colder and disagreeable. I went to Bellevue. Mr. Green and Charlie worked at fence—set posts towards Mr. Rice's. Louis came back to-day. He and John F. hauled posts and old rails from the old fence Mr. Green pulled down. Sally poorly with her face swollen badly. Jim L. came over and we settled up and I measured 1 ½ cord stove wood he cut. Mr. Murdock has been hauling his corn to the river the last few days. He sold to Frank Grant. Mrs. Loudon washed to-day instead of Martha. Sally got letter from Patty. I got one from Julia. Began to feed Hetty scalded meal instead of corn.
- 16 Mr. Green & Charlie worked at fence near Mr. Rice's. I went to see Mr. Rice about the line, and about hay. Louis and John hauled some fodder out of Charlie's new ground loads, and some lumber to the fence, and some from Bellevue. I went to Bellevue, took letters to the 3 banks to acknowledge the drafts I got. Went to see Mr. Clore about coal and about Mr. Rice's hay. Sally still poorly. Another lamb this morning.
- 17 A beautiful spring-like day. Mr. Green & Charlie worked at the fence. Louis cleared a place for John to haul rails—took the rest of the meat out and hung it &c. John F. hauled rails from the point up by Mr. Hunt's to the fence row by the pike. Jim L. and John worked in the thicket. The young people in the neighborhood had a surprise party here—left before midnight. It was a perfectly beautiful night. Sally still poorly. I went over to Mr. Rice's to see about hay. Mrs. Garnett and Louisa came and took dinner.
- 18 Another lovely day—bright and warm. Louis & John hauled rock to fix the smoke house floor and for the worm of the string of fence opposite the yard gate. Then Louis went after Mr. Nolan's trowel &c. and began to fix the smoke house. John hauled new rails from the high hill Jim & John L. worked in the thicket I believe. I hadn't time to go and see them. Mr. Green and Charlie worked at the fence this side of the stable and cut as they did yesterday. I

sent my young sow to Mr. Rice by Jim L. I went to Bellevue—took Sally who was better—stopped at Louisa's to see Mrs. Nancy Arnold.

- 19 Another warm day—lovely. Jim Loudon like a simpleton took the wrong sow yesterday so I sent for her and sent the Walton sow to Mr. Rice's. Jim & John worked ½ day in the thicket and John cleaned away some hedge brush while Jim took the sow. I settled up with Jim and pd. him for John 1.00 so I am now owing John .80 and Jim owes me .25, see a/c book. Mr. Green & Charlie worked at the fence setting posts behind the house, quit at 4 Mr. G. says. Louis worked fixing the stonework in the smoke house floor. John Foley hauled rails from beyond Mr. Hunt's and 1 load of hedge brush to the gully. He found Florence Clore's ring and I took it to her. Cordy came over and stayed with Sally this evening. Hilda and I went to Bellevue. I took a letter from Sally to Patty. It rained this evening.
- 20 Rained almost all day. We went to Louisa's and dined and spent the day.
- 21 Another lamb. Rained nearly all day but I was out. Charlie put up the string of fence in place of that old pole fence & afterwards I believe he hauled some rock. Jim & John Loudon worked at clearing away hedge brush and then went to the thicket. I don't know whether they quit for rain or not. John F. hauled away trash from the line where Charlie put up the fence and then hauled rails for it. Louis finished the smokehouse floor and ran cattle out of bottom and he and John shelled some corn. I found my sheller broken. Mr. Rice sent home the Walton sow.
- 22 Disagreeable da—cloudy, windy and turning colder. Charlie put up the rail fence to inclose the barnyard from the big pasture. John & Louis hauled rails for him till I was ready to go to Rising Sun—then John took us to the river—after that he hauled rails for Charlie, attended to stock &c. and went to the river for us. Louis took us to Rising Sun and I had Sally's tooth pulled. I took wheat down and got flour—also a sack of corn and had it ground for Aunt Sally. Got postal from a man named Wells about renting. Jim & John L. worked up in the thicket I am told. John Coons dug a ditch for me from the spring branch to the bridge in the fill.
- 23 Two other lambs. Bright day and colder, 24° above 0 in the morning, 23° above at 10 p.m. Sally started to school again. Mr. Green came back—worked in the barn a while and then nailing plank on the fence—the old plank. John attended to the stock &c. then hauled old lumber then rails—the 24 new rails from the point in the pasture and old ones. Charlie worked at that the rest of the day—after noon Louis helped Mr. Green nail on lumber. Jim & John Loudon worked in the thicket. John Coons worked at a ditch from the bridge to Searcy branch. Dr. Piatt and Harry Botts called here to-day while I was out. I went to Louisa's. I started smoke under the meat this morning. Sent postal to Mr. Wells. Dr. Grant came by to see me, says Mr. Murdock's corn was so damaged that it had been sold 3 times and returned.
- 24 Another lamb, just about as cold as yesterday and bright and pretty. Mr. Green and Charlie worked at the fence nailing on old lumber and fixing bar _ots. John Foley took one to Bellevue in the wagon to get mail &c. and afterwards hauled rails. He only worked ½ day—had headache. Louis worked at fixing stalls in stable and the usual everyday work. I believe Jim and John worked in the thicket but had n't time to go and see them. John Coons finished the ditch before dinner and I pd. him, see a/c book. I went to Bellevue with Hilda—she got news of her uncle being very sick. I got letter from Pat with a tin picture of herself & Posey. We stopped at Mr. Clore's.
- 25 Rained moderately off and on nearly all day. Mr. Green worked. Charlie ½ day. They moved the old gate up and set it and various little things. Louis and John hauled some locust posts

from the stable shed and so had a rut catching. Then they hauled a lot of loose lumber up to the barn. After dinner Louis tinkered a little at the stable and John sorted some potatoes in the kitchen cellar—did n't get much done. I rode almost all day—took Sally to school and went for her as usual—rode on the point up the pike to hunt hickory wood and up to Jim Loudon's &c.

- 26 Pretty bright warm day. Mr. Green and Charlie worked at fence nailing boards on behind the house and setting posts in garden. John hauled the lumber for Mr. Green and posts and he and Louis hauled out hedge brush from the garden. Louis quit at noon and got John L. to work in his place. Jim & John L. sawed and set locust posts for the paling from the trees blown down in the sand field, ½ day. After dinner John F. and John Loudon hauled some rails from the garden and a load of hickory wood from the point. Mr. Kelly came in and we had a sort of settlement.
- 27 Sunday. Rained hard last night and off and on all day. Stayed home till 4 when I took Hilda down to go to Cin. on her way to Jacksonville. She missed the boat and waited for the Shirley. We stayed at Mike Corbin's and saw her on the other boat. Borrowed of Mike 40.00 for her and expected to give Mr. Corbin an order for it, but he was gone on the other boat. Sally and I came out together in the pitch dark in the wagon. I gave Mike letters for Cousin Kate and for Patty from Sally. Another lamb.
- 28 Dull cloudy disagreeable day—colder in the evening. John Foley poorly—did n't work. Charlie knocked off some old lumber and then helped Louis haul old rails. Jim and John L. worked getting out paling posts and making up tops of locust. I went to Louisa's for Sally.

A young man named Lodge came to see about renting. Jim & John L. worked in the locust grove cutting tops and splitting them. Had the calves turned on the rye. In my letter to Mr. Foster I asked him to send me a draft for \$75. and to let Patty have 25.00 on my account.
- 30 Had to stay home on account of company—Kate Corbin and her 2 sisters & Sudy Arnold spent the day and dined. I had to be in the kitchen nearly all the time bothering with May who is such a poke I can hardly endure her. Mr. Green left before sun up to see his brother. Charlie worked part of a day on the fence towards Mr. Garnett's line. Louis helped him. John took Sally to school and went after her and then he and Louis had to attend to the cattle &c. It snowed furiously and turned out a dreadful night—wind blowed and broke off one of my mamma's cedars in the front yard. Louis left out 13 sheep in the storm. Isaac came after potatoes.
- 31 Deep snow on the ground and wet and disagreeable. The boys did n't get much done. Shelled a little corn, cleared paths &c. After dinner Sally and I went to Bellevue on the sled—we went by for Mrs. Garnett and some of the Arnolds. I got the mail—a letter from Mr. Foster inclosing a draft for \$75. I endorsed it and gave it to Mike to pay for the \$40. I borrowed of him Sunday the 27th for Hilda—also paid my store bill of \$26. and got the balance of 9. Got letters from buddy and Hilda.

[Miscellaneous Notes on last pages of journal booklet]

Timothy

Prepare ground in fall – plough and harrow—sow in Feb. Allow 1 bushel to six acres if sowed alone. If sowed with clover allow 4 lbs clover to the acre, and 1 bushel of timothy to acres. A simple way is to take 2 buckets timothy to 1 bucket clover and mix. A good hand can sow 10, 12, 15, acres a day.

Some say 1 ½ gallon timothy to the acre. Wheat 1 bus. 1 pk. to the acre in fallow ground. 1 ½ bus. wheat to the acre in corn.

Clover

Mr. Clore says sow it on ground ploughed and harrowed smooth—without any oats or other grain—sow 10 lbs to the acre on poor ground—8 lbs. on rich ground. If possible sow just before a rain. Generally they tell me to allow 1 bus. seed to 6 acres.

Ernest says 1 bushel to 4 acres—of clover. 1 ½ bus. oats to the acre sowed with clover. 1 bushel millet to the acre. German millet.

Spanish buns.

1 pt. powdered sugar. ¾ cup butter, 4 eggs, 1 cup sweet milk 1 qt sifted flour, 3 teaspoonfuls baking powder sifted in the flour. 1 tablespoonful ground cinnamon, 1 teaspoonful cloves bake in a quick oven—eggs not beaten separately (sic). Then make a parting from the whites of the two eggs and one cup powdered sugar, after the cake is done spread this over it and brown it in the oven like a meringue. Bake in shallow tin pans and leave it in and cut in squares to take out.

Shrewsbury Cakes

1 lb. flour – ½ lb. sugar – ½ lb butter, 4 eggs, mace or nutmeg in a little wine—drop on buttered tins and sift a little sugar on them.

Charlotte Russe – Julia's

Take ½ box gelatine—put a little cold water over it—after it soaks soft, pour a little boiling water on it and dissolve it—sweeten and flavor to taste, and set it to cool. Sweeten and flavor 1 qt. rich cream and whip it stiff—add the gelatine gradually whipping it all the time with Dover egg beaten.

For Scarlet Fever

Steep smart weed without boiling it and give it as a tea—if not able to swallow drop it on the tongue. Apply to the throat the steeped leaves and stems of the weed as hat as can be tolerated. Sue Tew's prescription. Smart weed tea well sweetened is also good for a cough.

For bots in horses.

Drench with very strong sage tea, with a cup of N.O. molasses to a quart of the tea.

For Warts—castor oil, applied frequently for animals add a little turpentine to keep the flies off.

Hilda's Salve.

¼ lb beef lard—1 tablespoonful of Venice turpentine—as much red precipitate as will lie on dime—mix well in a china vessel, with a stick.

Liniment

Hartshorn 1 ½ oz Camphor gum 1 oz. Turpentine 2 oz. sweet oil 4 oz. Alcohol 8 oz. For man or beast.

Rheumatism—Acute or chronic

Acute—Extract of spotted nettle (*Rutica pillifera*) 1 pint—Spirits turpentine 1 oz – S_ict of Belladonna ½ oz. – Olive oil 2 oz. Heat the parts at the fire and rub well 3 times a day with the mixture. Also let the outer [?] be very light, and bowels open twice daily—in very severe cases give the following internal mixture

Louis hoed and poled some beans and John cut stove wood and fixed holes in fence to keep pigs out till the dew dried, then all 3 went to cut hay; one drove the machine and the others got rocks out of the way; broke a section so it had to be taken out and broke another. The cut till dinner, then the clouds looked so threatening I would n't cut anymore. The boys cut weeds till 3 then raked up the driest of the hay and hauled 3 loads to the barn which I had spread over the floor to dry out. Just at dusk it rained. Sudy was here.
- 8 Sent Polly to Mr. Jenkins's by Charlie—the trip was of no use he told Joan. Charlie was gone ½ day, did n't work after dinner. The 2 boys, Louis and John fixed holes in fence and picked cherries, cut a little wood &c., only worked ½ day. I got letter from Patty. Sudy was here.

- 9 Sunday. We all went to church. After we got home it poured down rain. Rained almost all day and apparently all night.

I went to Louisa's twice. A man named Hays came to see about apples. Mr. Dills came for a few minutes. I suppose my children left for their papa's to-day. Lord love them—my house is left unto me desolate.
- 13 Charlie worked mowing weeds in the thicket ground. John and Louis turned the hay in the barn, suckered the corn and weeded a little then chopped weeds in the little pasture till noon, then helped Charlie mowing weeds and sprouting stumps. Went to Louisa's before dinner; canned cherries and cut out dress. Two little Willhoit boys came and stayed all night.
- 16 Sunday. 11 years ago Sally was christened at Judge Atwater's. Stayed home stupid and sleepy; it poured down rain. Towards sundown I went to Louisa's.
- 17 Sent Polly to Burlington by Charlie. Joan said it was of no use and the man said it was not necessary to send her again. I set John and Louis to cutting weeds in the thicket but they had to quit on account of wet and rain. It has poured almost all day, the branches and creeks have been over the bottoms and things washed out generally. The 2 boys shelled a little corn.
- 18 So wet this morning that Louis did n't work. Neither did Charlie. I set John Coons to fixing up water-gaps, cutting weeds &c. After dinner all 3 worked cutting weeds and sprouting stumps. - 24 Bright day for a wonder. The boys all worked—in the morning in the garden—I had musk melons thinned—tomatoes, butter beans, pole beans, summer squash, cucumbers &c., hoed and cucumbers planted. Before dinner they cut some clover across the run. After dinner they hauled 4 loads in the barn—Jim Loudon and Tom Nettles helped ½ day. Miss R. sewed for Hilda.

It rained about 6 p.m. I went to Bellevue, got letters from Patty, Sally and Julia. Took letter to Sally. Went to Louisa's. Heard Dr. Piatt was to be married to-day.
- 28 Hot and bright. Miss R. said the thermometer was up to 94° in the shade. Charlie, Louis and John worked in the garden till the dew was off; hoed sweet potatoes and Charlie poled some tomatoes. Then they went to the field and one cut clover while the others mowed and sprouted in the thicket—they finished mowing. Jim Loudon worked with them ½ day. The last thing they hauled in 1 very large load of hay. The Bennett children and Katy Arnold came over this morning.
- 29 Charlie, Louis, John and Jim worked this morning. Louis and Jim all day. Charlie quit at ½ past 3 on account of his baby being worse. John quit an hour later to go for his mother. 30 Sunday. This day 11 years ago, sister Belle died. I went to Louisa's in the morning—stayed home the rest of the day. Louis told me he was going to quit working for me before the 4th July. John Coons got back to-night.

July

- 1 Louis, John and Jim L. worked. They fixed machine blades and Jim mowed weeds till the dew was off and they got in the hay that was cured, 3 not heavy loads. Dr. Grant came down to select the lambs; the boys caught them to be marked. After the hay was hauled, I sent the machine up on cherry hill and Louis cut the clover in the point next to the piece Mr. Hunt grubbed. Jim cut weeds. I rode round all day nearly; about dark it rained.
- 2 Rainy day. John & Louis did n't get much done—shelled a little corn I believe—then they got up the sheep and selected the lambs, 26 in all, also the 3 wethers—took them to Bellevue to be shipped—in care Dr. E. L. Grant. The 26 lambs weighed 2085 lbs; the 3 wethers 275 lbs. The lambs' fleeces being wet made them weigh more than usual. Got letters from both my babies, and from Mrs. Brown. Went to Bellevue twice. Took letters to 3 banks.
- 3 Louis came in and we settled up and I paid him off in full. Did n't write in my book for 2 or 3 days but will try and set down things right. John tried cutting the white top on the hill with machine, but as he was alone could n't get along well & quit and cut with scythe. In the evening he went down for Mr. Graham who came.
- 4 No hands worked—hot as pepper. Stayed at home with the exception of going to see Louisa. Mr. House stopped a few moments.
- 5 It is 11 years since sister Belle was buried, Lord grant her rest and bliss. Hot as Africa. John worked and Jim L. ½ day cutting weeds. Mr. Graham went away in the evening time.
- 6 Still very hot. John cut weeds, went to mill—then ground machine blades. Jim L. worked mowing weeds. Went to see Louisa. Mrs. Rice was over.
- 7 Sunday. Stayed home all day. Charlie's baby so low it was expected to die all day. At night it rained.
- 8 John Coons and Jim L. worked fixing the road up cherry hill. It rained hard in showers and they began to clean out the kitchen cellar. Kate Corbin came this evening. I hired Tom Nettles for one month at 13.00; he said he would set in to-morrow.
- 9 Hot as pepper again. Tom Nettles set in to work the month I hired him for. He and John cleaned out the kitchen cellar and hauled the dirt away. Jim L. finished working the road and cut some weeds in the barn lot. After dinner they all went on cherry hill and John drove the machine while the others helped—mowed under trees &c. He cut the strip of clover above the wheat and began in the timothy and clover. I went to Bellevue twice and to Louisa's. Sent letter to Sally H. Got letters from the 3 banks in Washington with drafts to the amount of 67. Also letters from Patty, Julia and BBG. Charlie's little baby, Lucia, died this evening at a quarter past 9 o'clock.
- 10 Went to Rising Sun in skiff. Got my 3 drafts cashed at the bank, \$69. Got things I wanted for self and Charlie. It was hot as pepper on the boat. Got letter from Patty. Stopped at Corbin's on my way up and pd. him \$30.00 on my store account. Got Miss R. to help me make things for Charlie's baby—laid it out and went to the funeral. None of the boys worked.
- 11 Hot as pepper again. The boys worked getting machine knives ready and Tom stopped hog holes—then all went on the hill and worked cutting grass. John, Tom and Jim L. worked all day. Charlie worked ½ day hauling after dinner. I had Mr. Murdock's horse to rake with after dinner. They hauled 3 loads. Mr. Hunt came down and helped unload one. I told Mr. Murdock that I would not rent to him next year. Miss R. went to Bellevue. I got letters from Cousin Tom Flandrau and Sally. I settled with Miss R. and paid her off in full for her sewing.

- 12 Hot as ever. Charlie, John, Tom and Jim Loudon worked hauling hay—got in 5 loads—then they hoed in garden a little. I went to Louisa's.
- 13 It rained last night and this morning. Sent John down with Polly to be shod and letter to Cousin Tom. Tom Nettles mowed a few weeds and they ground a scythe or so—did n't get anything worth speaking of done. Charlie did n't work—he came in and we straightened our account and I set down his work, to the first of July. After noon there was a tremendous rain and the creek was higher than I remember seeing it except July 1874. All the bottom corn seems ruined, fences, water-gaps &c. washed away. Got photographs of Cousin Harvey and the baby from Sue.
- 14 Sunday. Went to church in the morning and to see Mrs. Wingate baptized. Intensely hot. In the evening went to Louisa's and went back and stayed all night. Ernest and Hal Bennett came after dark.
- 15 Buddy's birthday—he is an old semi-centennial now. Hot as ginger. Set Charlie, John and Tom to fixing water-gaps and mending fences. Went to Louisa's again before dinner—went back and stayed all night and so did Hilda—thought Louisa would die. This is the hottest weather we have had for a long time.

He finished towards evening and then hoed in the garden—the other boys, John and Tom hauled poles &c. in the morning and after dinner went on the hill and cut hay. I had to go to bed and take a nap. In the evening I went to Bellevue and took letters to Patty and the 3 banks—got letters from Patty and Sarah. Stopped at Louisa's and found her worse—went back and stayed all night. Louisa died at 10 minutes past 10 p.m.—a weary sufferer gone to rest. Hot is n't the word.
- 17 Sent John Coons down to get a barrel of flour from Talbott's. He then took Billy down and brought out one sack of it—did a little hoeing afterwards. Charlie and Tom hoed in garden till the dew was off then went on the hill and raked & hauled one load hay. After dinner they went up and finished raking the down hay and hauled another load making only 2 to-day—great hay-making but it is so hot they can hardly work. They had to stop and run out Mr. Rogers's pigs they said. I tried to sleep some in the morning—went to Mrs. Murdock's twice to see her sick baby and rode round in spite of heat.
- 18 Charlie, John and Tom worked getting in hay—hauled 3 loads before dinner. They did n't go to work in the field till about ½ past 3 it was so hot—they ground machine blades and then finished cutting the hay on the hill. I went to Bellevue to take Miss Robinson home—got a letter from the children—came back and then went again to Louisa's funeral. Mrs. Nancy Arnold came and spent the day with us and I took her back to Mr. Arnold's and went on to Bellevue. It was 97° in the shade on the gallery.
- 19 A day whose horror I never can forget. Dr. E. L. Grant came down to settle with me and pay me for the lambs and sheep he took up the 2nd. The 26 lambs only weighed 1910 lbs. at the yard. He got for the 26 lambs 76.40; for the 3 wethers 6.12 = 82.52. From this take the expenses 5.61 and there remains \$76.91. He paid me cash. The boys worked in the garden in the morning and then went on the hill and raked and hauled a load. After dinner they raked and hauled 2 loads making 3 in all and finished the hay on cherry hill. Hot but not as hot as yesterday. Charlie, John and Tom worked.
- 20 Went to Bellevue and took a letter to Sarah. Mr. House came out and I paid him in presence of Hilda the \$16.00 I was owing him for cistern tops; see Oct. 15th. I paid the balance on Corbin's bill and got it receipted. He came to see me about the summer apples and I sold them to him on the tree for .40 a barrel. Charlie, John and Tom worked in garden, ploughing, hoeing &c. and cut and hauled the timothy off the little meadow, 2 loads. Very

hot. In the evening John went down with the wagon for the Flandraus but they did n't come—several letters came from St. Paul for Cousin Tom F. so I looked for them. Sudy came over for a little while. Very hot as usual.

- 21 Sunday. Hot but turned cooler after sundown—stayed home all day and it was so lonesome I did n't know what to do. R. E. came in the evening but only stayed a little while.
- 22 Lovely cool day. Had Posy and John turned in the big pasture across the pike. Went to Bellevue and sent a letter to Mrs. Brown with 3.00 to pay Patty's doctor's bill—see 29th Jan. Charlie, John and Tom worked the road up cherry hill. Jim worked ½ day in the graveyard and around it. In the evening Cousin Tom Flandrau, wife and two children came. Mr. House came at night.

Charlie made trips to Bellevue with the wagon for him and then fixed the machine and mowed weeds in the big pasture and mowed the yard. Jim cut briars and weeds round the graveyard and mowed some in the yard. I got letter from Patty. Mr. Murdock began to haul oats—put my share in the top of the basket shop. Still cool. Mr. Murdock threshed and his oats came to 111 bus. and all the wheat to 42 bushels so my share will be only 21. Sent Jim L. to look for Betty and he found her with a steer calf dead—he went back and took off the hide. Mr. House had John and Tom to work for him till noon and Tom a while after.
